OPTIMISE YOUR ENVIRONMENT WITH MONITORMAX

What does an outage really mean for your business?

- A loss of business income?
- Immediate disruption to customer services?
- Increased pressure among IT teams?

MonitorMax offers vigilant, real-time monitoring and expert-driven alerts to maintain your environment's health, acting as a dedicated team member at a fraction of the cost. Designed to fit your specific needs, MonitorMax ensures your systems are always performing at their best, backed by advanced technology and expert engineers. We're committed to keeping your systems up and running, so you can focus on what you do best.

What can we monitor?

- Cloud Services (M365, AWS, Microsoft)
- Storage (SAN / NAS)
- Backup Servers
- Routers
- Firewalls
- Servers (Microsoft and Linux)
- Microsoft Core Roles (AD, DNS, DHCP)
- HTTP (Web Sites)
- Web Servers
- SNMP
- Virtual Machines

ASI SOLUTIONS

MonitorMax is fully customisable to your organisation's needs

Including the option to add pre-paid service hours. This approach provides you with:

Enhanced operational efficiency

MonitorMax streamlines your environment monitoring process, empowering your IT team to concentrate on strategic growth rather than routine checks.

Proactive issue resolution

Early detection and targeted alerts ensure you address network issues before they impact your operations, minimising downtime.
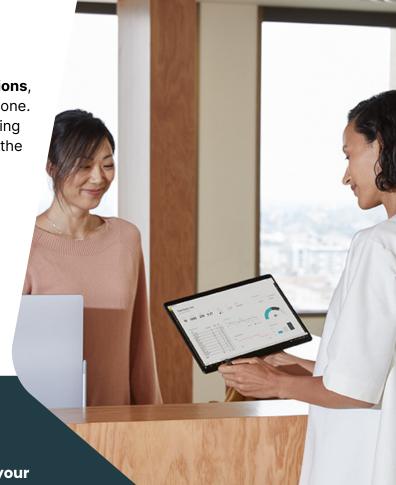

Alignment with business goals

MonitorMax adapts its monitoring to support your goals, turning environment performance into a strategic asset for scalable growth and customer satisfaction.

Why choose ASI Solutions?

Because we're here to **support your operations**, whether you have no IT team or just a small one. It's the perfect choice for organisations looking for enterprise-level IT management without the overhead of a large in-house team.

With MonitorMax, high-quality IT services become **accessible to all**, providing the essential support layer every organisation needs to tackle IT challenges head-on and ensure non-stop environment reliability.
